## II. Significant rupee depreciation and local inflation

The rupee depreciation positively affected the company's top line and bottom line. However, maintaining the exchange at a fixed level for an extended period posed challenges in maintaining competitiveness in the international market place.

The local inflation has created steep increases in operational expenses and overheads. The management continues to focus on productivity improvements and lean initiatives to mitigate the impact.

### III. Other considerations - Environmental Engineering

The current slowdown of the construction sector and suspension of government funded projects, have impacted the water solutions and waste water treatment business segment of Environmental Engineering sector.
